

MorphoAccess™ 500+ Series

*High-performance
fingerprint identification
for physical access control
and time & attendance*

- Fast, accurate, reliable
- Multifactor authentication
- Up to 50,000 users in 1:N identification mode
- Easy integration into existing systems
- Power-Over-Ethernet (POE)
- Integrated MIFARE® and DESFire® contactless card reader/encoder (option)
- Optional wireless LAN communication

MorphoAccess™ 500+ Series

High-performance fingerprint identification for physical access control and time & attendance

The MorphoAccess™ 500+ Series (MA 500+) are versatile biometric readers intended for access control and time & attendance. They use the Sagem Sécurité proprietary algorithms, which have acquired worldwide reputation for their accuracy and level of performance. Their rapidity and networking capabilities enable them to address all security applications, from one-door control to the protection of buildings, warehouses, vast infrastructures and government agencies. MA 500+ offers value-added retailers and access control manufacturers a reliable, powerful and scalable solution.

The know-how of the world's #1

- **Wide area, accurate finger print sensor**, for high definition fingerprint image acquisition
- The MA 500+ readers offer the **highest level of security** on the market
- **Fast**: 0.7 sec in authentication mode and 0.9 sec in 1:1000 identification mode (including detection, coding and matching)
- **Accurate**: depending on the required level of security, the false acceptance rate or FAR can be configured down to 10⁻⁸

Powerful capabilities in a small package

- **The highest database capacity on the market**: up to 100,000 fingerprint templates with extended license
- **Multifactor authentication**: with MIFARE® and DESFire® contact less card reader, fingerprint and PIN code
- **Operates in standalone or net worked modes**. For small populations, it is possible to capture fingerprints and encode badges on the device itself.
- **Equipped with numerous interfaces for easy integration into existing systems**
- **Trusted and versatile**
- **Option: fake finger detection** with optronic sensor

Software

- **MorphoAccess™ Enrollment & Management System (MEMS) Software**: complete application for centralized management (enrollment, device management, verification station)
- **Software Development Kit (SDK)**: can be proposed to VARs who want to develop and embed their own application in the MorphoAccess™.
- **Morpho Integrator's Kit (MIK)**: enables integrators to rapidly interface their own proprietary Windows® based applications to the MA 500+ Series.

Technical specifications

MorphoAccess™ unit

- Integrated 500 dpi MorphoSmart™ optical sensor .9" x .9" (23x23mm)
- Backlit LCD graphical display 128x64 pixels
- Backlit keypad with 12 Keys + 4 programmable function keys
- Buzzer and bi-color LED
- Dual-core ARM 9 microprocessors with multi thread processing capability
- Dry contact relay

Interfaces

- USB port
- Communication port for identifier management: customizable Wiegand IN & OUT, RS.485, Clock & Data IN & OUT, Ethernet (10/100 Base T), Wi-Fi (optional)

Database

From 3,000 to 50,000 users, two fingerprint templates each, distributed in five databases of 10,000 users each (50K capacity with MA-Xtended license)

Security

- SSL on TCP/IP network
- Secure screws, antitheft and anti-tamper switches

Certifications

- FBI PIV-IQS*
- Complies with CE, FCC and RoHS standards

Operating conditions:

14°F to 122° F (-10° to +50° C), 10% < RH < 80%
Voltage supply
9 V to 16 V (350 mA typical @ 12V) or Power Over Ethernet (POE)

Physical characteristics

- Dimensions: 6.1" x 6.1" x 2.9" (55x155x74 mm)
- Weight: 1.8 lbs (0.8kg)

	MA 500+	MA 520+ D	MA 521+ D
Function	Identification	Identification & authentication	Identification, authentication & fake finger detection
Contactless reader	-	MIFARE® 1K & 4K, DESFire® 2K, 4K, 8K	MIFARE® 1K & 4K, DESFire® 2K, 4K, 8K
Database size	3K or 50K with MA-Xtended license	3K or 50K with MA-Xtended license	3K or 50K with MA-Xtended license
Multi-factor authentication	BIO, PIN+BIO	BIO, Card, Card+BIO, PIN+BIO, Card+PIN, Card+PIN+BIO, Card+PIN+BIOPIN**	

* PIV-IQS Personal Identity Verification - Image Quality Specifications

** BIOPIN= alternate password solution instead of fingerprint
